PROFILE

Information Technology graduate (B.Tech, 2025) with project experience in full-stack development, Java applications and Python computer vision. Built database-backed applications with authentication, automated testing and cloud deployment. Seeking an entry-level software development role.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, SQL, HTML, CSS

Web and databases: React, FastAPI, PostgreSQL, MySQL

Tools and deployment: Git, GitHub, Docker, GitHub Actions, Render, Neon

Data and vision: Pandas, NumPy, OpenCV, PIL, scikit-learn, Matplotlib, Tableau, Excel

Core concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms, SDLC

RELEVANT PROJECTS

DevHub AI - Developer Collaboration Platform

React | TypeScript | FastAPI | PostgreSQL | Docker | [Repository](#) | [Live application](#)

- Built a responsive platform for organizations, projects, tasks and discussions with PostgreSQL-backed APIs.
- Implemented Google/GitHub sign-in, email/password authentication, role-based access and session management. Deployed on Render with Neon PostgreSQL and automated frontend/backend tests.

Airline Flight Reservation System

Java | MySQL | OOP | SDLC | [Repository](#)

- Developed a Java booking engine using transactional SQL across five tables, eliminating double-booking errors in end-to-end testing.
- Reduced flight-lookup latency to under 100 ms across 50+ simulated routes using indexed queries.

JobFlow - Asynchronous Job Processing Platform

Java | Spring Boot | PostgreSQL | Docker | [Repository](#)

- Built a Spring Boot/PostgreSQL asynchronous job-processing platform with JWT-secured REST APIs and database-backed idempotent submission.
- Implemented concurrent job claiming with row locks and SKIP LOCKED, worker leases, crash recovery, exponential retries and dead-letter replay.

EDUCATION

B.Tech in Information Technology | 2021 - 2025 | CGPA: 7.17/10

Ajay Kumar Garg Engineering College, Ghaziabad

Class XII, CBSE: 87.6% (2020)

Class X, CBSE: 82.2% (2018)

Kashi Vipra National Public School, Varanasi

CERTIFICATIONS

Databases and SQL for Data Science with Python

IBM / Coursera | March 2026

AI Fundamentals | October 2024

Sales prediction project using supervised learning, feature engineering and data handling.

Problem Solving (Basic) - HackerRank | March 2024
